## **PART I - BUSINESS AND GENERAL INFORMATION**

### Item 1. Business

#### (2). Business of Issuer

Medco Holdings, Inc. ("MHI" or "MED" or the "Corporation") is an investment holding company listed on the Philippine Stock Exchange ("PSE"). It was incorporated in the Philippines on October 23, 1969 as the Mindanao Exploration & Development Corporation and adopted its current name in 1995.

In 1995, Citivest Asia Limited ("Citivest"), a corporation organized under the laws of the British Virgin Islands, acquired approximately 67% of the outstanding capital stock of the Corporation. In 1997, Citivest purchased additional MED shares which increased its equity stake to 70.67%.

Prior to Citivest's acquisition of a majority interest in the Corporation, MHI was engaged in mineral exploration and development. With the entry of Citivest, the Corporation embarked on a major corporate shift that resulted in its transformation into an investment holding company. In line with the change in its primary business purpose, the Corporation had previously sold all its rights, titles, interests including all liabilities and obligations in its mining lease contracts and operating agreements to South Seas Oil & Mineral Exploration Development Co., Inc.

Thereafter, the Corporation has been engaged in investment holding activities. It does not produce or sell any product, or render any service. At present, its investment portfolio is comprised of holdings in companies involved in financial services and the operation of exhibition halls and conference facilities for trade development.

In 2005, Citivest divested a portion of its shareholdings in the Corporation thereby reducing its equity stake to approximately 46%.

In 2018, following the equity restructuring and recapitalization plan implemented during the year and the issuance of new shares, Bonham Strand Investments Ltd. (BSIL) acquired 69.67% ownership over the Corporation. BSIL is an entity engaged in investment holding and registered in the British Virgin Islands. As a result of dilution, the equity stake of Citivest declined to 10.20%.

In May 2022, in view of the change of control resulting from BSIL's acquisition of 69.67% ownership of the Corporation in 2018, the Securities and Exchange Commission (SEC) directed BSIL to conduct a Mandatory Tender Offer to minority shareholders in accordance with the provisions of Rule 19 of the Securities Regulation Code (SRC).

BSIL dutifully complied with the said SEC directive and, on December 21, 2022, the Company filed its Final Tender Offer Report with the SEC and the Philippine Stock Exchange (PSE). As a result of BSIL's acquisition thereunder of 242,000 MED shares tendered by a minority shareholder, BSIL's ownership in the Corporation increased to 69.68%.

BSIL is a wholly owned subsidiary of Millenium Empire Holdings Limited (MEHL). On July 29, 2024, Winter Dragon Limited (WDL), an investment holding company registered in the British Virgin Islands, approved the acquisition of all outstanding shares of MEHL. Because of the acquisition, WDL indirectly holds 69.68% of MED's total issued and outstanding shares. In compliance with Section 19 of the SRC, WDL made a tender offer to minority shareholders with the Final Tender Offer Report submitted to the SEC and the PSE on October 24, 2024. A total of 8,000 MED shares were tendered by minority shareholders and purchased by WDL, resulting in WDL's direct and indirect ownership of 69.68% of issued and outstanding common shares of MED.

Details of the affiliated companies and their activities as at December 31, 2025 are as follows:

#### Item 6. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion and analysis should be read in conjunction with Item 1 of this report and the Audited Financial Statements and the related Notes to Financial Statements in Exhibit 1 of this Report.

#### ***Plan of Operation***

The Corporation implemented the following recapitalization plan after it was approved by the Securities and Exchange Commission (SEC) on April 24, 2018:

- (a) decrease in the authorized capital stock from P700,000,000 to P35,000,000 through a reduction in the par value per share from P1.00 to P0.05;
- (b) the use of the additional paid-in capital thereby created to reduce the outstanding deficit;
- (c) increase in authorized capital stock from P35,000,000 to P470,000,000; and,
- (d) the subscription by Bonham Strand Investments Ltd. and Mr. Xu Han Jiang to a total of 2,459,292,441 common shares issued out of the increase in authorized capital stock which was paid through the assignment of debts owed to said creditors amounting to P122,964,622.

With the implementation of its recapitalization plan, the Corporation achieved a turnaround in 2018 when it became profitable and earned a net income of P2,738,406 thereby posting retained earnings of P383,373,182 as of December 31, 2018.

In 2019, the Corporation was again profitable with a net income of P758,572 resulting in a further improvement in its stockholders' equity to P75,229,067.

Upon the onset of the COVID-19 pandemic in the Philippines in March 2020, the Philippine government imposed strict community quarantine restrictions starting in that month and covering the remaining months of 2020 and the entire 2021. Such restrictions caused the immediate stoppage of operations of MEC in March 2020 and the cancellation of all exhibition activities scheduled then and in the remaining months of 2020. Thus, MEC had to immediately stop paying dividends to its stockholders.

Quarantine restrictions of varying strictness persisted in 2021 which enabled MEC to operate for short durations during the year conducting the few activities allowed by such restrictions. Thus, MEC continued to incur substantial operating losses in 2021.

In 2022, the gradual loosening up of community quarantine restrictions as the number of daily infections steadily declined allowed MEC to resume its operations and generate substantially-improved revenues thereby enabling the company to trim down its net loss to near break-even level.

In 2023, as the number of daily infections had declined to minimal levels enabling the full removal of quarantine restrictions, MEC's operations and earned revenues picked up substantially to levels approaching those achieved in pre-pandemic 2019 and became very profitable again. Nonetheless, to conserve and build up its cash resources to a more comfortable level, MEC deemed it prudent to defer paying cash dividends to its stockholders.

MEC's non-payment of dividends in the years 2020 through 2023 resulted in the Corporation's incurring net losses during these four years.

In 2024 and 2025, the continuing improvement in MEC's net income enabled this affiliate to declare a yearly 5% cash dividend payment to the Corporation equivalent to P1,500,000, which contributed to its improved bottom line for these two years.

The Corporation is nonetheless confident that it can satisfy its cash requirements not only in the next twelve (12) months but also on a longer term basis. Its liquid assets as at December 31, 2025 consisted of P2.7 million of cash and cash equivalents. In case the Corporation has any unforeseen cash requirement that cannot be met by its internal sources, its external sources of liquidity would consist of, among others, advances from its affiliate companies and/or major shareholders.

As of December 31, 2025, the Corporation has three (3) employees: a company driver, a messenger, and an administrative personnel. The Company does not anticipate any increase in the number of its employees within the ensuing twelve (12) months.

### ***Results of Operations for the years ended December 31, 2025, 2024 and 2023***

#### **2025**

Total revenues for the year ended December 31, 2025 increased by 21% compared to 2024. Revenues for the year composed of dividend income (82%), foreign exchange gains - net (17%), and interest income from short-term placements and bank deposits (1%).

The increase in revenues was primarily due to the recognition of foreign exchange gain arising from the reclassification of an amount previously recorded as "Due to a Third Party" to "Loan Payable." On June 9, 2025, the Corporation entered into a loan agreement with Winright Holdings Limited (Winright) amounting to US\$120,000. In 2024, this amount had been recorded as "Due to a Third Party," representing excess funds transferred by Winright to the Corporation. The exchange rates used were ₱58.547 to US\$1.00 at initial recognition and ₱55.614 to US\$1.00 upon reclassification, resulting in a realized foreign exchange gain. Interest income also increased during the year because the loan proceeds were placed in short-term deposit placements with a local bank.

Total expenses increased by 24% compared to 2024. Expenses for the year consisted of salaries and employee benefits (44%), impairment losses (13%), professional fees (11%), net interest expense (9%), occupancy (4%), membership fees and dues (4%), transportation (3%), representation (3%), and other expenses (9%).

The increase in the 2025 expenses was mainly due to the recognition of a full impairment provision on receivables from related parties which management has deemed uncollectible. Additionally, interest expense was recognized on two (2) loans obtained from Winright Holdings Limited. Higher audit fees in 2025 also contributed to the overall increase in total expenses. Other expense categories, including communication, employee benefits, and miscellaneous expenses, likewise recorded increases during the year.

## **2024**

Total revenues for the year ended 2024 increased significantly by approximately 964% compared to 2023. Revenues for 2024 primarily comprised dividend income (99.71%) and interest income from short-term placements (0.29%).

The increase in revenues was mainly due to a P1.5 million cash dividend received in May 2024, following a period of no dividend receipts from 2020 to 2023. Interest income declined due to a substantial reduction in deposit placements as funds were withdrawn to meet the Corporation's working capital requirements. Furthermore, a net foreign exchange loss was recorded this year, in contrast to the foreign exchange gain recognized in 2023.

Total expenses slightly increased by 5% compared to 2023. This year's expenses consisted of salaries and employee benefits (53%), professional fees (12%), membership fees and dues (6%), occupancy (5%), transportation (4%), representation (3%), and other expenses (17%).

The increase in expenses for 2024 compared to 2023 was primarily due to higher professional fees paid during the year. In addition to the regular professional fees paid annually, additional professional services were availed in 2024. Interest expense also increased due to a loan obtained in November 2024. Expense components such as membership fees and dues, communication, transportation, impairment losses, and other expenses also posted an increase during the year under review.

## **2023**

Total revenues for the year ended 2023 increased by 65% compared to the year 2022 figure. The Corporation's revenues for this year consisted mainly of foreign exchange gain (95%) and interest income from short-term placement and bank deposits (5%).

The bulk of the increase in total revenues was mainly contributed by the foreign exchange gain from the revaluation of the Corporation's US Dollar deposits with a local bank. In addition, a substantial portion of the US Dollar deposits were converted to Philippine Peso on various dates when the exchange rate of the Philippine Peso to a US Dollar was higher than the exchange rate on February 13, 2023, the date when the additional fund (in US Dollars) from the Corporation's parent company was received. This resulted to the recognition of a higher realized foreign exchange gain in 2023. The increase in the peso exchange rate resulted to an approximately 73% increase in the said foreign exchange gain account. However, interest income contracted by 17% because the bank interest rates for the short-term placement were lower this year, which ranged from 0.10 % to 0.20% as compared to last year's interest rates range of 0.30% to 0.40% per annum.

Total expenses increased slightly by 3% compared to the previous year's figure. During the year under review, expenses comprised mainly of salaries and employee benefits (55%), professional and management fees (11%), membership fees and dues (6%), occupancy (5%), transportation (4%), representation (3%) and other expenses (16%).

The increase in the 2023 expenses was mainly due to the increase in membership fees and dues. Higher fees and dues were paid to the Philippine Stock Exchange, Inc. (PSE) in 2023 due to the subscription renewal of RSA security tokens and other PSE dues. Furthermore, impairment loss in Input VAT recognized in 2023 was higher than in 2022.

Other components of expenses such as professional and management fees, transportation, and other expenses also posted an increase in the year under review. However, representation expenses, taxes and licenses posted a decrease in 2023. This was the result of the Corporation's continuing cost-cutting measures.

## ***Financial Condition and Changes in Financial Condition as of December 31, 2025, 2024 and 2023***

### **2025**

With reference to the statement of financial position, total assets decreased slightly by 4% compared to 2024. The asset composition for the year consisted primarily of financial assets at fair value through other comprehensive income (82%), due from related parties (14%), cash and cash equivalents, and other assets - net (4%).

The decline in total assets was mainly driven by a 71% reduction in cash & cash equivalents, attributable to withdrawals from short-term placements to support the Corporation's working capital requirements. Additionally, a portion of the Corporation's funds was advanced to a related party, resulting in an increase in the "Due from related parties" account. The 100% decrease in receivables was due to the recognition of a full allowance for impairment on receivables from related parties, as well as the collection of other receivables related to Winter Dragon's tender offer expenses. On the other hand, Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) increased by 6%, primarily due to the higher fair value of the Corporation's investment in Manila Exposition Complex, Inc. (MEC). The fair value of this investment, as determined by external auditors using the price-to-earnings approach, amounted to ₱59,899,227 in 2025, compared to ₱56,693,912 in 2024.

On the liabilities side, there was a slight decrease in 2025 compared to 2024, mainly due to the settlement of advances from related parties. However, the post-employment benefit obligation increased by 17% year-on-year.;

As at December 31, 2025, the total shareholders' fund of the Corporation amounted to P40 million.

### **2024**

With reference to the statement of financial position, total assets increased by 33% compared to 2023. The asset composition for the year consisted of financial assets at fair value through other comprehensive income (75%), cash and cash equivalents (12%), due from related parties (11%), and receivables and other assets - net (2%).

The increase in total assets was mainly due to the 27% rise in the Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) account, attributed to the higher fair value of the Corporation's investment in Manila Exposition Complex, Inc. (MEC). Our external auditors used the price-to-earnings approach to determine the fair value of this investment, which amounted to ₱56,693,912 in 2024, compared to ₱44,660,048 in the previous year.

Additionally, cash and cash equivalents increased by 58% mainly due to proceeds from a loan agreement with a third party, Winright Holdings Limited, alongside the receipt of a cash dividend. Similarly, receivables and amounts due from related parties increased in 2024 as a result of advances granted to related parties. A desktop computer was also purchased in 2024 thereby increasing the Other Assets account.

On the liabilities side, there was a 54% increase in 2024 compared to 2023. This significant rise was primarily due to the aforementioned loan agreement entered into on November 12, 2024, resulting in the recognition of a loan payable. Additionally, a higher amount of accrued expenses and other liabilities was recorded in 2024 as a consequence of the loan agreement. Also, the post-employment benefit obligation recognized this year was 56% higher than in 2023.

As at December 31, 2024, the total shareholders' fund of the Corporation amounted to P42 million.

## **2023**

With reference to the statement of financial position, total assets increased by 26% compared to last year's figure. Total assets were composed of financial assets at fair value through other comprehensive income (78%), cash and cash equivalents (10%), due from related parties (10%), and receivables (2%).

Significant movements were noted in most components thereof, specifically in the financial assets at fair value through other comprehensive income (FVOCI), cash and cash equivalents, and due from related parties accounts. The increase in total assets was mainly due to the 17% increase in the fair value of the Corporation's investment in Manila Exposition Complex, Inc. (MEC). In 2023, the fair value of said investment amounted to P44,660,048 which was determined by using the price-to-earnings approach as compared to last year's fair value of P38,142,260 wherein the price-to-book value approach was used. Furthermore, cash and cash equivalents increased by 80% due to the additional fund sent by the Corporation's parent company via dollar remittance for the Corporation's working capital requirements. Due from related parties account also posted an increase due to the advances granted to Capital Place International Limited, a related party.

As a consequence of the aforementioned additional fund from the Corporation's parent company, the total liabilities account significantly increased by 99%. This also caused a corresponding increase in the due to related parties account by 128%. Likewise, post-employment benefit obligation also posted an increase during the year under review. However, accrued expenses and other liabilities account decreased by 12% due to the payment of other tender offer expenses for the parent company.

As at December 31, 2023, the total shareholders' fund of the Corporation amounted to P35 million.

## ***Prospects for 2026***

The Philippine economy grew by 5.1% in 2025, exceeding the expectations of many despite slightly missing the government's 5.3% target for the year and registering below the GNP growth rates achieved in the previous two years, namely, 5.7% in 2024 and 5.3% in 2023. For 2026, as the result of the sudden outbreak of the US-Israel-Iran war last March, the economic outlook appears quite dim considering the dramatic negative impact of this war on oil supply and prices and the runaway inflation now besetting our country and the whole world. This situation is unfortunately bound to become much worse if this war expands further and/or lasts longer.

Nonetheless, in view of its leading position in the exhibition business, the Corporation's affiliate, MEC, is expected to weather the current crisis and to maintain if not surpass its strong revenue and profit showing last year. In fact, MEC remains optimistic and is currently reviving its capacity expansion plan which was put on hold in March 2020. MEC's forthcoming expansion will auger well for the Corporation's long-term profit outlook, even though MEC's dividend paying capability will expectedly be curtailed in the near term due to the need to conserve cash to finance the significant expansion costs.

## ***Key Variable and Other Qualitative and Quantitative Factors***

The Corporation is not aware of any trends, events or uncertainties that would materially affect its liquidity and its operations as a whole. There are also no material commitments for capital expenditure or any significant elements of income or loss from continuing operations. The Corporation does not also anticipate any liquidity problem within the next twelve (12) months. The Corporation has no default or breach of any note, loan, lease or other indebtedness or financing arrangement. There are also no past due trade payables.

The Corporation's internal sources of short-term and long-term liquidity are its liquid assets which as at December 31, 2025 consisted of P2.7 million of cash and cash equivalents. Its external sources of liquidity would consist of advances from its affiliate companies and/or major shareholders.

There are no events that will trigger direct or contingent obligation that is material to the Corporation, including any default or acceleration of an obligation.

There are also no material off-balance sheets transactions, arrangements, obligations (including contingent obligation), and other relationships of the Corporation with unconsolidated entities or other persons created during the period.

Furthermore, there were no other known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. Aside from those already mentioned above, the Corporation is also not aware of any events that will cause a material change in the relationship between the costs and revenues.

**The top five (5) performance indicators of the Corporation for the past three (3) fiscal years are presented below:**

- a. Revenue Growth- This measures how fast the Corporation's business is expanding. The ratio shows the annualized rate of increase (or decrease) of the Corporation's revenues.
- b. Net Income Growth- Similar to revenue growth, this ratio is an indicator of the rate of growth of the Corporation's bottom line figure.
- c. Return on Equity- For an investor who wants to have an indication of his investment returns, this ratio provides such a measure.
- d. Current Ratio- This ratio measures the Corporation's ability to pay its currently maturing obligations.
- e. Debt-to-Equity Ratio- This ratio offers a method of assessing the Corporation's financial health and gauging the balance sheet durability.

### Report on the Audit of the Financial Statements

#### *Opinion*

We have audited the financial statements of Medco Holdings, Inc. (the Company), which comprise the statements of financial position as at December 31, 2025 and 2024, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2025, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2025 in accordance with Philippine Financial Reporting Standards (PFRS Accounting Standards).

#### *Basis for Opinion*

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements of public interest entities in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Key Audit Matter*

Key audit matter is those matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

## ***Valuation of Financial Assets at Fair Value Through Other Comprehensive Income***

### ***Description of the Matter***

Under PFRS 13, *Fair Value Measurement*, the Company is required to measure the fair value of its assets and liabilities in accordance with the standard's framework. This involves using market-based measurements rather than entity-specific measurements. The fair valuation of the financial assets of the Company is considered a key area of focus in our audit due to the use of significant quantitative unobservable inputs in computing the market value of these financial assets. The Company has unquoted equity securities classified as Financial Assets at Fair Value through Other Comprehensive Income (FVOCI). The fair value of the financial assets is determined using the market approach – price-to-earnings approach. In addition, management's fair valuation of the financial assets process involved significant judgment and high estimation uncertainty based on the assumptions used. The significant assumptions encompass historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

As of December 31, 2025, the fair value of the Company's financial assets at FVOCI was P59,899,227, representing 82.30% of the total assets, which amounted to P72,782,596.

### ***How the Matter was Addressed in the Audit***

Our audit procedures to address the risk of material misstatement relating to the valuation of financial assets at FVOCI included, among others, the items enumerated below.

- assessing the reasonableness of unobservable inputs used and evaluating the valuation techniques used by the management;
- comparing the methodologies applied and assumptions used by the management with our expectations and emerging market activities; and,
- reviewing the formulas used in fair market valuation and recomputing the fair values based on inputs and methodologies applied.

The Company's policy, judgments and estimates on accounting for Financial Assets at FVOCI is disclosed in Notes 2 and 3 to the financial statements and an analysis about the details of the assets' components is presented in Note 7 to the financial statements.

### ***Other Information***

Management is responsible for the other information. The other information comprises the information included in the Company's Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025, but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS, SEC Form 17-A and Annual Report for the year ended December 31, 2025 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information for the year ended December 31, 2025 required by the Bureau of Internal Revenue as disclosed in Note 21 to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements prepared in accordance with PFRS Accounting Standards. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The engagement partner on the 2025 audit resulting in this independent auditors' report is Arman B. Neptuno.

***1.2 Approval of Financial Statements***

The financial statements of the Company as at and for the year ended December 31, 2025 (including the comparative financial statements as of December 31, 2024 and for the years ended December 31, 2024 and 2023) were authorized for issue by the Company's Board of Directors (BOD) on March 31, 2026.

**2. MATERIAL ACCOUNTING POLICY INFORMATION**

The material accounting policy information that have been used in the preparation of these financial statements are summarized in the succeeding page. The policies have been consistently applied to all the years presented, unless otherwise stated.

## **2.1 Basis of Preparation of Financial Statements**

### *(a) Statement of Compliance with Philippine Financial Reporting Standards*

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS Accounting Standards). PFRS Accounting Standards are adopted by the Financial and Sustainability Reporting Standards Council (FSRSC) from the pronouncements issued by the International Accounting Standards Board and approved by the Philippine Board of Accountancy.

The financial statements have been prepared using the measurement bases specified by PFRS Accounting Standards for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

### *(b) Presentation of Financial Statements*

The financial statements are prepared in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Company presents all items of income and expenses and other comprehensive income in a single statement of comprehensive income.

The Company presents a third statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the statement of financial position at the beginning of the preceding period. The related notes to the third statement of financial position are not required to be disclosed.

### *(c) Functional and Presentation Currency*

These financial statements are presented in Philippine pesos (PHP), the Company's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the financial statements of the Company are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Company operates.

## **2.2 Adoption of New and Amended PFRS Accounting Standards**

### *(a) Effective in 2025 that is Relevant to the Company*

The Company adopted for the first time amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability*, which are mandatorily effective for annual periods beginning on or after January 1, 2025. The amendments require entities to assess whether a currency is exchangeable and to determine a spot exchange rate when exchangeability is lacking. These amendments also mandate the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable. The amendments had no significant impact on the financial statements of the Company.

(b) *Effective Subsequent to 2025 but not Adopted Early*

There are new amendments to existing standards effective for annual periods subsequent to 2025, which are adopted by the FSRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and unless otherwise indicated, none of these are expected to have significant impact on the Company's financial statements:

- (i) PFRS 9 and PFRS 7 (Amendments), *Financial Instruments, and Financial Instruments: Disclosures – Amendments to the Classification and Measurement of Financial Instruments* (effective from January 1, 2026). The amendments add new required disclosures for any investments in equity instruments designated at fair value through other comprehensive income (FVOCI). These include disclosures of the fair value gain or loss presented in other comprehensive income for the period, showing separately the fair value gain or loss related to investments derecognized or held, as well as the transfer of cumulative gain or loss within equity related to derecognized investments.
- (ii) PFRS 18, *Presentation and Disclosure in Financial Statements* (effective from January 1, 2027). The new standard impacts the classification of profit or loss items (i.e., into operating, investing and financing categories) and the presentation of subtotals in the statement of profit or loss (i.e., operating profit and profit before financing and income taxes). The new standard also changes the aggregation and disaggregation of information presented in the primary financial statements and in the notes. It also introduces required disclosures about management-defined performance measures. The amendments, however, do not affect how an entity recognizes and measures its financial condition, financial performance and cash flows.

### **2.3 Financial Instruments**

(a) *Financial Assets*

(i) *Classification, Measurement and Reclassification of Financial Assets*

The Company's financial assets include financial assets at amortized cost and financial assets at FVOCI.

*Financial Assets at Amortized Cost*

The Company's financial assets at amortized cost are presented in the statement of financial position as Cash and Cash Equivalents, Receivables – net, and Due from Related Parties.

For purposes of cash flows reporting and presentation, cash and cash equivalents comprise accounts with original maturities of three months or less, including cash. These generally include cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of the financial assets except for those that are subsequently identified as credit impaired. For credit-impaired financial assets at amortized cost, the effective interest rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance). The interest earned is recognized in the statement of comprehensive income as Interest Income.

(ii) Financial Assets at FVOCI

At initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Company for trading or as mandatorily required to be classified as fair value through profit or loss (FVTPL). The Company has designated unquoted equity instruments as at FVOCI on initial recognition.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value, including the foreign exchange component, are recognized in other comprehensive income and are reported as part of Revaluation Reserves – net account in equity. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation Reserves - net account is not reclassified to profit or loss but is reclassified directly to Retained Earnings account.

Any dividends earned on holding equity instruments are recognized under the Income section of the statement of comprehensive income, when the Company's right to receive dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and, the amount of the dividend can be measured reliably, unless the dividends clearly represent recovery of a part of the cost of the investment.

(iii) Evaluation of Impairment of Financial Assets

The Company assesses its Expected Credit Losses (ECL) on its financial assets carried at amortized cost on a forward-looking basis. Recognition of credit losses is no longer dependent on the Company's identification of a credit loss event. Instead, the Company considers a broader range of information in assessing credit risk and measuring ECL, including past events, current conditions, reasonable and supportable forecasts that affect collectability of the future cash flows of the financial assets.

For cash and cash equivalents, the Company applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are low credit risk investments.

The key elements used in the calculation of ECL are as follows:

- Probability of default – It is an estimate of likelihood of a counterparty defaulting at its financial obligation over a given time horizon, either over the next 12 months or the remaining lifetime of the obligation.
- Loss given default – It is an estimate of loss arising in case where a default occurs at a given time. It is based on the difference between the contractual cash flows of a financial instrument due from a counterparty and those that the Company would expect to receive, including the realization of any collateral or effect of any credit enhancement; and
- Exposure at default – It represents the gross carrying amount of the financial instruments in the event of default which pertains to its amortized cost.

Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

*(b) Financial Liabilities*

Financial liabilities include Accrued expenses and other liabilities (except due to government agencies), Loans payable, and Due to related parties.

**2.4 Revenue and Expense Recognition**

Currently, the Company does not have any revenue source except those arising from financial assets which are under PFRS 9 (i.e., dividends and interest income).

Expenses are recognized in the statements of comprehensive income upon utilization of the goods or services or at the date they are incurred.

**2.5 Leases – Company as Lessee**

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in the statements of comprehensive income on a straight-line basis over the lease term.

**2.6 Foreign Currency Transactions and Translation**

The accounting records of the Company are maintained in PHP. Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign currency gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statements of comprehensive income.

## 2.7 *Employee Benefits*

The Company provides post-employment benefits to employees through a defined benefit plan and defined contribution plans, and other employee benefits.

### (a) *Short-term Employee Benefits*

Short-term employee benefits include salaries, contributions to government agencies, and non-monetary benefits provided to current employees, which are expected to be settled before 12 months after the end of the reporting period during which employee services are rendered, but does not include termination benefits.

### (b) *Post-employment Defined Benefit Plan*

The Company's defined benefit post-employment plan covers all regular full-time employees. The pension plan is tax-qualified, non-contributory and administered by a trustee.

The defined benefit obligation is calculated annually or every two years by independent actuaries using the projected unit credit method.

### (c) *Post-employment Defined Contribution Plan*

A defined contribution plan is a post-employment plan under which the Company pays fixed contributions into an independent entity (such as the Social Security System). The Company has no legal or constructive obligation to pay further contributions after payment of the fixed contribution.

### (d) *Termination Benefits*

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognizes termination benefits at the earlier of when it can no longer withdraw the offer of such benefits and when it recognizes costs for a restructuring that is within the scope of *PAS 37 Provisions, Contingent Liabilities, and Contingent Assets*, and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

## **2.8 Related Party Relationships and Transactions**

Related party transactions are transfers of resources, services or obligations between the Company and its related parties, regardless of whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Company; (b) individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company and close members of the family of any such individual; and (c) the Company's partially funded retirement plan.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

Based on the requirement of SEC Memorandum Circular 2019-10, *Rules of Material Related Party Transactions of Publicly-listed Companies*, transactions amounting to 10% or more of the total assets based on its latest financial statements that were entered into with related parties are considered material.

All individual material related party transactions shall be approved by at least two-thirds (2/3) vote of the Company's BOD, with at least a majority of the independent directors voting to approve the material related party transactions.

In case that a majority of the independent directors' vote is not secured, the material related party transaction may be ratified by the vote of the stockholders representing at least two-thirds of the outstanding capital stock. For aggregate related party transactions within a 12-month period that breaches the materiality threshold of 10% of the Company's total assets based on the latest financial statements, the same board approval would be required for the transactions that meet and exceed the materiality threshold covering the same related party.

## **2.9 Equity**

Capital stock represents the nominal value of shares that have been issued.

Additional paid-in capital (APIC) represents premium received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from APIC, net of any related income tax benefits.

Revaluation reserves - net comprise fair value changes of financial assets at FVOCI and remeasurements of the defined benefit post-employment plan.

Retained earnings represent all current and prior period results of operations as reported in the statement of comprehensive income.

### **2.10 Loss Per Share**

Currently, the Company does not have potentially dilutive shares outstanding; hence, the diluted earnings (loss) per share is equal to the basic loss per share.

### **2.11 Events After the End of the Reporting Period**

Any post year-end event that provides additional information about the Company's financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

## **3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES**

The preparation of the Company's financial statements in accordance with PFRS Accounting Standards requires management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

### **3.1 Critical Management Judgments in Applying Accounting Policies**

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements:

#### *(a) Evaluation of Business Model Applied in Managing Financial Instruments*

The Company developed business models which reflect how it manages its portfolio of financial instruments. The Company's business models need not be assessed at entity level or as a whole but shall be applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Company) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument, the Company evaluates in which business model a financial instrument or a portfolio of financial instruments belong to taking into consideration the objectives of each business model established by the Company (e.g., held-for-trading, generating accrual income, direct matching to a specific liability) as those relate to the Company's investment and trading strategies.

(b) *Testing the Cash Flow Characteristics of Financial Assets and Continuing Evaluation of the Business Model*

In determining the classification of financial assets, the Company assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. Moreover, the assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk) does not meet the amortized cost criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Company assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Company considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

(c) *Recognition of Provisions and Contingencies*

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Judgment is exercised by management to distinguish between provisions and contingencies. Disclosures on relevant provisions and contingencies are presented in Note 17.

### **3.2 Key Sources of Estimation Uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period:

(a) *Estimation of Allowance for ECL*

The measurement of the allowance for ECL on receivables and due from related parties is an area that requires the use of significant assumptions about the future economic conditions and credit behaviour (e.g., likelihood of counterparties defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 4.2.

(b) *Fair Value Measurement for Financial Instruments*

Management applies valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using unobservable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the end of reporting period.

The carrying values of the Company's financial assets at FVOCI and the amounts of fair value changes recognized on those assets are disclosed in Note 7.

(c) *Determination of Realizable Amounts of Deferred Tax Assets*

The Company reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. No deferred tax assets were recognized as of December 31, 2025 and 2024 as the Company's management believes that the Company will not be able to generate sufficient taxable profit in the coming years against which the assets can be utilized (see Note 15).

(d) *Impairment of Non-financial Assets*

In assessing impairment, management estimates the recoverable amount of each asset or a cash-generating unit based on expected future cash flows and uses an interest rate to calculate the present value of those cash flows. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate. Though management believes that the assumptions used in the estimation of fair values reflected in the financial statements are appropriate and reasonable, significant changes in those assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

Accumulated impairment loss recognized on the Company's other assets is disclosed in Note 9.

(e) *Valuation of Post-employment Defined Benefit Obligation*

The determination of the Company's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by an independent actuary in calculating such amounts. Those assumptions include, among others, discount rates and expected rate of salary increases. A significant change in any of these actuarial assumptions may generally affect the recognized expense, other comprehensive income or loss and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and expense and an analysis of the movements in the estimated present value of post-employment benefit, as well as the significant assumptions used in estimating such obligation are presented in Note 14.2.

#### 4. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risks in relation to financial instruments. The Company's financial assets and financial liabilities by category are summarized in Note 18. The main types of risks are market risk, credit risk, and liquidity risk. The Company's risk management is coordinated with the BOD and focuses on actively securing the Company's short to medium-term cash flows by minimizing the exposure to financial markets.

The Company does not actively engage in the trading of financial assets for speculative purposes, nor does it write options. The relevant financial risks to which the Company is exposed to are described below and in the succeeding pages.

##### **4.1 Market Risk**

The Company is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and certain other price risk which result from both its operating, investing and financing activities.

###### *(a) Foreign Currency Risk*

Most of the Company's transactions are carried out in PHP, its functional currency. Exposures to currency exchange rates mainly arise from the Company's cash and cash equivalents, which are primarily denominated in United States (U.S.) dollars.

To mitigate the Company's exposure to foreign currency risk, non-Philippine peso cash flows are monitored.

As at December 31, 2025 and 2024, the U.S. dollars denominated financial assets, translated into PHP at the closing rate amounted to P988,252 and P7,185,189, respectively.

The sensitivity of profit before tax with respect to changes in PHP against U.S. dollar exchange rates is identified by management to have an insignificant impact on the Company's financial statements.

###### *(b) Interest Rate Risk*

The Company monitors interest rate movements and adjusts on its applicable financial assets and financial liabilities, if any, as may be deemed necessary.

At December 31, 2025 and 2024, the Company is exposed to changes in market interest rates through its cash and cash equivalents which are subject to variable interest rates (see Note 6). Management believes that the impact of changes in market interest rates is not material to the financial statements. All other financial assets and financial liabilities are noninterest bearing.

## 4.2 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments from granting receivables to customers including related parties and placing deposits with banks. The Company continuously monitors defaults of customers and other counterparties, identified either individually or by Company, and incorporates this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties.

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown in the statements of financial position or in the detailed analysis provided in the notes to financial statements, as summarized below.

<i>(Amounts in PHP)</i>	<u>Notes</u>	<u>2025</u>	<u>2024</u>
Cash and cash equivalents	6	<b>2,672,655</b>	9,155,618
Due from related parties	12	<b>10,150,000</b>	8,200,000
Receivables - net	8	<u>-</u>	<u>1,532,306</u>
		<b><u>12,822,655</u></b>	<b><u>18,887,924</u></b>

None of the Company's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents as described below.

### (a) Cash and Cash Equivalents

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P1,000,000 effective March 15, 2025 for every depositor per banking institution.

### (b) Due from Related Parties

The Company's due from related parties is repayable on demand and the contractual period is the very short period needed to transfer the cash once demanded. Management determines possible impairment based on the related parties' ability to repay the advances upon demand at the reporting date taking into consideration historical defaults from the related parties. Accordingly, no impairment was recognized in 2025 and 2024.

### (c) Receivables - net

The credit risk for interest and other receivables is considered negligible as this pertains to interest earned from short-term placements, which normally matures within 30 to 92 days. The Company applies the simplified approach in measuring ECL which uses a lifetime expected loss allowance for receivables.

### 4.3 *Liquidity Risk*

The Company manages its liquidity needs by carefully monitoring cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as based on a rolling 30-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly.

The Company's financial liabilities (excluding due to government agencies) as at December 31, 2025 and 2024 are presented below.

<i>(Amounts in PHP)</i>	Notes	<u>2025</u>	<u>2024</u>
Due to related parties	12	<b>18,253,532</b>	19,266,470
Accrued expenses and other liabilities	10	<b>875,745</b>	7,355,463
Loans payable	13	<b>11,357,440</b>	4,683,760
		<b><u>30,486,717</u></b>	<b><u>31,305,693</u></b>

Financial liabilities have contractual maturities within one year, except for loans payable that have a maturity of more than a year.

## 5. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

### 5.1 *Capital Management Objectives, Policies and Procedures*

The Company's capital management objectives are to ensure that the Company continues as a going concern. With the current financial condition of the Company, the management is working closely with the parent company and the BOD to achieve these objectives.

Relevant information is shown below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Total liabilities	<b>33,138,639</b>	33,593,912
Net equity	<b>39,643,957</b>	42,063,817
Debt-to-equity ratio	<b><u>0.84 : 1.00</u></b>	<u>0.80 : 1.00</u>

As at December 31, 2025 and 2024, the Company is not subject to any externally imposed capital requirements.

## **5.2 Track Record of Registration of Securities**

On April 24, 2018, the SEC approved the decrease in the Company's authorized capital stock from P700,000,000 divided into 700,000,000 common shares to P35,000,000 divided into 700,000,000 common shares by reducing the par value per share from P1.00 to P0.05. In addition, the SEC also approved the application of the resulting surplus amounting to P665,000,000 against the outstanding deficit as of December 31, 2017. On the same day, the SEC approved the Company's application for increase of its capital stock from P35,000,000 divided into 700,000,000 common shares to P470,000,000 divided into 9,400,000,000 shares. The payables to BSIL and Mr. Xu Hanjiang totalling P122,964,622 were used as subscription for this application.

The Company has a total authorized capital stock of P470,000,000 divided into 9,400,000,000 common shares with a P0.05 par value as at December 31, 2025 and 2024. There are 3,159,292,441 issued and outstanding shares with a total par value of P157,964,622 as of December 31, 2025 and 2024.

On March 26, 2025, the PSE approved the Company's application to list an additional 2,459,292,441 common shares subject of the Company's private placement transaction to support the increase in authorized capital stock (funded by a debt-to-equity conversion) with BSIL and Mr. Xu Hanjiang at a conversion price of P0.05 per share, for a total transaction value amounting to P122,964,622. On April 22, 2025, the PSE approved the listing of said shares.

The Company has 474 and 475 stockholders owning 100 or more shares each of the Company's capital stock as at December 31, 2025 and 2024, respectively.

On November 18, 1975, the SEC approved the listing at the PSE of the Company's shares totalling 700,000,000. As of December 31, 2025 and 2024, there are 673 holders of the listed shares equivalent to 100% of the Company's total outstanding shares. Such listed shares closed at P0.09 and P0.12 per share as of December 31, 2025 and 2024, respectively. The Company has no other securities being offered for trading in any stock exchange.

## **6. CASH AND CASH EQUIVALENTS**

As of December 31, 2025 and 2024, the Company has cash in bank amounting to P2,672,655 and P9,155,618, respectively, which generally earns interest based on daily bank deposit rates.

Interest earned from cash in bank for the year ended December 31, 2025, 2024 and 2023 amounted to P9,340, P4,363 and P6,371, respectively. Interest earned is reported as Interest Income in the statements of comprehensive income.

## 7. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

The Company's financial assets at FVOCI pertains to unquoted equity securities. The reconciliation of the carrying amounts of these financial assets are as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Balance at beginning of year	<b>56,693,912</b>	44,660,048
Fair value gain	<b>3,205,315</b>	12,033,864
Balance at end of year	<b><u>59,899,227</u></b>	<u>56,693,912</u>

The Company has designated the equity securities as financial assets at FVOCI because they are held for long-term investments and are neither held-for-trading nor designated as at FVTPL. The investment in unquoted equity security of the Company as at December 31, 2025 and 2024 mainly pertains to the Company's investment in Manila Exposition Complex, Inc. (MEC) representing 18.18% ownership interest (P31,268,750), investment in I-Mart Corporation (I-Mart) representing 10% ownership interest (P45,000,000) and investment in Export and Industry Bank, Inc. (EIB) representing 2.45% ownership (P478,380,834).

In 2025 and 2024, the fair value of the Company's investment in MEC is determined using price-to-earnings approach. The fair values of the investments in I-Mart and EIB were determined using the net asset valuation approach in both 2025 and 2024. Hence, these assets are categorized under Level 3 of the fair value hierarchy (see Note 19.2).

In 2025 and 2024, cash dividends amounting to P1,500,000 were received from investment in MEC. It is presented as Dividends in the statements of comprehensive income. No cash dividends were received in 2023.

The investments in I-Mart and EIB are carried at nil in the financial statements as of December 31, 2025 and 2024. The related fair value losses are accumulated as part of the Revaluation Reserves - net account under the equity section of the statements of financial position.

## 8. RECEIVABLES

This account consists of the following:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Accounts receivable	<b>40,313,000</b>	40,313,000
Other receivables	<b>794,841</b>	1,532,306
	<b>41,107,841</b>	41,845,306
Allowance for impairment	<b>(41,107,841)</b>	(40,313,000)
	<b><u>-</u></b>	<u>1,532,306</u>

The accounts receivable of the Company pertains to advances granted to a foreign corporation. These advances matured on August 31, 2000. Full allowance for impairment has been provided on this balance as management believes that it may no longer be collectible.

Other receivables pertain to the taxes and licenses paid by the Company on behalf of Classic Tycoon Investment Limited and Fair Navigator Limited, related parties under common ownership, with registered address at British Virgin Islands. The outstanding receivables are unsecured, noninterest-bearing and collectible in cash on demand. These receivables are subject to credit risk. In 2025, the Company recognized full allowance of the outstanding receivable as management believes it may no longer be collectible.

A reconciliation of the allowance for impairment at the beginning and end of the reporting periods is shown below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Balance at beginning of year	<b>40,313,000</b>	40,313,000
Impairment losses	<b>794,841</b>	-
Balance at end of year	<b><u>41,107,841</u></b>	<u>40,313,000</u>

## 9. OTHER ASSETS

This account consists of the following:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
Input value added tax (VAT)	<b>2,964,649</b>	2,783,175	2,589,199
Allowance for impairment	<b>(2,964,649)</b>	(2,783,175)	(2,589,199)
Computer equipment	<b>60,714</b>	75,893	-
	<b><u>60,714</u></b>	<u>75,893</u>	<u>-</u>

On December 10, 2024, the Company acquired computer equipment with an estimated useful life of five years. In 2025, depreciation expense amounting to P15,179 was recognized and is presented as part of Others in the 2025 statement of comprehensive income. No depreciation expenses were recognized in 2024 and 2023.

A reconciliation of the allowance for impairment of input VAT at the beginning and end of year is shown below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
Balance at beginning of year	<b>2,783,175</b>	2,589,199	2,411,188
Impairment losses	<b>181,474</b>	193,976	178,011
	<b><u>2,964,649</u></b>	<u>2,783,175</u>	<u>2,589,199</u>

The Company recognized impairment losses on its input VAT since management believes that the Company will not be able to offset such against any future tax liabilities. The amounts of impairment losses amounting to P181,474, P193,976, and P178,011 in 2025, 2024, and 2023, respectively, are presented as part of Impairment Losses in the statements of comprehensive income.

## 10. ACCRUED EXPENSES AND OTHER LIABILITIES

This account consists of the following:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Accrued expenses	875,745	329,823

Due to a third party	-	7,025,640
	<u>928,975</u>	<u>7,416,391</u>

Accrued expenses primarily include unpaid professional fees, transportation and other expenses as of the end of the reporting dates.

Due to a third party refers to the excess funds transferred to the Company by Winright Holdings Limited (Winright), a company incorporated and operating in British Virgin Islands. In 2024, the Company entered into a loan agreement with Winright, for the latter to extend a loan facility to the Company up to USD80,000. The Company had drawn the full facility amount in 2024, however, instead of the facility amount of USD80,000 the Company received USD200,000 from Winright. Consequently, the excess funds received shall be remitted back to Winright and is considered due on demand (see Note 13). There was no similar transaction in 2025.

## 11. OTHER EXPENSES

### **12.4 Lease of Office Space**

The Company leases its office space from a related party for a period of one year, renewable upon mutual agreement of the parties. Total rent charged to operations are presented as Occupancy in the statements of comprehensive income. The Company does not have any outstanding liabilities arising from these transactions as of December 31, 2025 and 2024 as the payments are made every month.

### **12.5 Key Management Personnel Compensation**

The compensation and benefits provided to key management personnel generally consist of short-term employee benefits. These are presented as part of Employee Benefits in the statements of comprehensive income (see Note 14.1).

### **12.6 Transactions with the Retirement Fund**

The retirement fund for the defined benefit post-employment plan is administered and managed by a trustee bank. The fair value and the composition of the plan assets as of December 31, 2025 and 2024 are presented in Note 14.2.

The retirement fund neither provides any guarantee or surety for any obligation of the Company nor its investments covered by any restrictions or liens.

The details of the contributions of the Company to the plan are presented in Note 14.2.

### **12.7 Other Payables**

In 2023, the Parent Company transferred funds to the Company in relation to the Parent Company's tender offer. No similar transactions occurred in 2025 and 2024. As of December 31, 2025 and 2024, the outstanding payable is nil.

### 13. LOANS PAYABLE

The Company's loans payable is broken down as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Current	11,357,440	-
Non-current	<u>-</u>	<u>4,683,760</u>
	<u>11,357,440</u>	<u>4,683,760</u>

On June 9, 2025, and November 12, 2024, the Company entered into an interest-bearing loan agreement with Winright for USD120,000 and USD80,000, respectively, at an annual interest rate of 6%, due in 15 months from the date of agreement.

The Company shall repay the loan on the maturity date unless otherwise agreed in writing. As of December 31, 2025 and 2024 the outstanding loans payable amounting to P11,357,440 and P4,683,760, respectively, and is presented as Loans Payable in the statements of financial position. The interest expense incurred from these loans for the year ended December 31, 2025 and 2024 amounted to P505,919 and P37,624, respectively, and is presented as part of Interest expense - net in the statements of comprehensive income. There were no similar transactions in 2023.

Presented below is the reconciliation of the outstanding balance at the end of each reporting periods.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Balance at beginning of year	4,683,760	-
Additions	<u>6,673,680</u>	<u>4,683,760</u>
Balance at end of year	<u>11,357,440</u>	<u>4,683,760</u>

### 14. EMPLOYEE BENEFITS

#### *14.1 Employee Benefits Expense*

Details of salaries and employee benefits are presented below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
Short-term employee benefits	3,086,160	3,013,427	2,983,886
Post-employment defined benefits	<u>189,727</u>	<u>157,040</u>	<u>162,430</u>

## 14.2 *Post-employment Defined Benefit*

### (a) *Characteristics of the Defined Benefit Plan*

The Company maintains a partially funded, tax-qualified, non-contributory post-employment benefit plan that is being administered by a trustee bank that is legally separated from the Company. The trustee bank managed the fund in coordination with the Company's Management Committee who acts in the best interest of the plan assets and is responsible for setting the investment policies. The post-employment plan covers all regular full-time employees.

The normal retirement age is 65. The plan also provides for an early retirement at age 50 with a minimum of ten years of credited service and voluntary separation with a minimum of five years of credited service, both subject to the approval of the Company's BOD. Normal retirement benefit is an amount equivalent to 100% of the final monthly salary for every year of credited service.

### (b) *Explanation of Amounts Presented in the Financial Statements*

Actuarial valuations are made every two years to update the retirement benefit costs and the amount of contributions. The 2024 amounts presented in the succeeding pages are based on the actuarial valuation report obtained from an independent actuary. No actuarial valuation was done in 2025 and 2023.

The amounts of post-employment benefit obligation recognized in the statements of financial position are determined as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Present value of obligation	4,599,605	4,164,584
Fair value of the plan assets	<u>(2,000,913)</u>	<u>(1,937,293)</u>
	<u>2,598,692</u>	<u>2,227,291</u>

The movements in the present value of the post-employment benefit obligation recognized in the books follow:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Balance at beginning of year	4,164,584	3,395,874
Current service cost	189,727	157,040
Interest cost	245,294	234,994
Actuarial loss due to:		
Changes in financial assumptions	-	344,830
Deviations of experience from assumption:	<u>-</u>	<u>31,846</u>
Balance at end of year	<u>4,599,605</u>	<u>4,164,584</u>

The movements in the fair value of plan assets are presented below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Balance at beginning of year	1,937,293	1,971,450
Interest income	114,107	136,424
Loss on plan assets (excluding amounts included in net interest)	<u>(50,487)</u>	<u>(170,581)</u>
Balance at end of year	<u><b>2,000,913</b></u>	<u>1,937,293</u>

The composition of the fair value of plan assets at the end of the reporting period by category and risk characteristics is shown below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>
Cash and cash equivalents	60,185	60,185
Debt securities –		
Unit investment trust funds (UITF)	1,793,583	1,844,070
Account/Interest receivable	147,710	33,603
Accrued trust fees	<u>(565)</u>	<u>(565)</u>
	<u><b>2,000,913</b></u>	<u>1,937,293</u>

The fair values of the above debt securities are determined based on quoted market prices in active markets (classified as Level 1 of the fair value hierarchy).

The Company's plan assets earned (incurred) a return (loss) of (P50,487), (P170,581), and P96,571 in 2025, 2024, and 2023, respectively. Plan assets do not comprise any of the Company's own financial instruments or any of its assets occupied and/or used in its operations.

The components of amounts recognized in profit or loss and in other comprehensive income in respect of the defined benefit post-employment plan are as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
<i>Reported in profit or loss:</i>			
Current service cost	189,727	157,040	162,430
Net interest expense	<u>131,187</u>	<u>98,570</u>	<u>87,928</u>
	<u><b>320,914</b></u>	<u>255,610</u>	<u>250,358</u>
<i>Reported in other comprehensive income (loss):</i>			
Return (loss) on plan assets (Excluding amounts included in net interest expense)	<b>(50,487)</b>	(170,581)	96,571
Actuarial arising from:			
Experience adjustments	-	(344,830)	-
Changes in financial assumptions	<u>-</u>	<u>(31,846)</u>	<u>-</u>
	<u><b>(50,487)</b></u>	<u>(547,257)</u>	<u>96,571</u>

Current service cost is presented as part of Salaries and Employee Benefits in the statements of comprehensive income.

Net interest expense is included as part of Interest expense - net in the statements of comprehensive income.

Amounts recognized in other comprehensive income were included within items that will not be reclassified subsequently to profit or loss.

In determining the amounts of the defined benefit post-employment obligation, the following significant actuarial assumptions were used for the Company's obligation:

	<u>2025</u>	<u>2024</u>	<u>2023</u>
Discount rates	<b>5.89%</b>	5.89%	6.92%
Expected rate of salary increase	<b>4.00%</b>	4.00%	4.00%

Assumptions regarding future mortality experience are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 65 is 10 for both males and females.

These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero-coupon government bond with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) *Risks Associated with the Retirement Plan*

The plan exposes the Company to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

(i) *Investment and Interest Risks*

The present value of the defined benefit obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a reference government bond will increase the plan obligation. However, this will be partially offset by an increase in the return on the plan's investments in debt securities and other assets and if the return on plan asset falls below this rate, it will create a deficit in the plan. Currently, the plan has relatively substantial investment in government debt securities while it also invests in cash and cash equivalents, and UITF for liquidity purposes. Due to the long-term nature of the plan obligation, a level of continuing equity investments in debt securities is an appropriate element of the Company's long-term strategy to manage the plan efficiently.

(ii) *Longevity and Salary Risks*

The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of the plan participants both during and after their employment, and to their future salaries. Consequently, increases in the life expectancy and salary of the plan participants will result in an increase in the plan obligation.

(d) *Other Information*

The information on the sensitivity analysis for certain significant actuarial assumptions, the Company's asset-liability matching strategy, and the timing and uncertainty of future cash flows related to the retirement plan are described below and in the succeeding page.

(i) *Sensitivity Analyses*

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the defined benefit obligation as of December 31, 2025 and 2024:

	<b>Impact on Defined Benefit Obligation</b>		
	<b>Change in assumption</b>	<b>Increase in assumption</b>	<b>Decrease in assumption</b>
<i>(Amounts in PHP)</i>			
<b>December 31, 2025</b>			
Discount rate	<b>100 basis points</b>	<b>(370,315)</b>	<b>410,423</b>
Salary increase rate	<b>100 basis points</b>	<b>414,069</b>	<b>(380,293)</b>
December 31, 2024			
Discount rate	100 basis points	(335,291)	371,606
Salary increase rate	100 basis points	374,907	(344,326)

The sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation recognized in the statements of financial position. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

(ii) *Asset-liability Matching Strategies*

To efficiently manage the retirement plan, the Company ensures that the investment positions are managed in accordance with its asset-liability matching strategy to achieve that long-term investments are in line with the obligations under the retirement scheme. This strategy aims to match the plan assets to the retirement obligations by investing in long-term fixed interest securities (i.e., government or other debt securities) with maturities that match the benefit payments as they fall due and in the appropriate currency. The Company actively monitors how the duration, and the expected yield of the investments are matching the expected cash outflows arising from the retirement obligations.

In view of this, investments are made in reasonably diversified portfolio, such that the failure of any single investment would not have a material impact on the overall level of assets.

There has been no change in the Company's strategies to manage its risks from previous periods.

(iii) *Funding Arrangements and Expected Contributions*

The plan is currently underfunded by P2.6 million. While there are no minimum funding requirement in the country, the size of the underfunding may pose a cash flow risk in about 20 years' time when a significant number of current employees is expected to retire.

## 15. TAXES

The components of tax expense as reported in the profit or loss section of the statement of comprehensive income are as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
MCIT at 2%	1,574	4,347	1,045
Final tax at 20% and 15%	<u>1,725</u>	<u>715</u>	<u>969</u>
	<u><b>3,299</b></u>	<u><b>5,062</b></u>	<u><b>2,014</b></u>

The reconciliation of tax on pretax loss for 2025, 2024 and 2023 computed at the applicable statutory tax rates to tax expense reported in the profit or loss section of the statements of comprehensive income is presented below.

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
Tax on pre-tax loss at 20%	<b>(1,114,278)</b>	(896,561)	(1,116,383)
Adjustment for income subjected to lower tax rates	<b>(143)</b>	(158)	(305)
Tax effects of:

Tax expense	<u><b>3,299</b></u>	<u><b>5,062</b></u>	<u><b>2,014</b></u>

The Company did not recognize net deferred tax assets on net operating loss carry over (NOLCO) and other temporary differences since management believes that the related benefits may not be fully utilized considering the current status of operations of the Company. Details of unrecognized net deferred tax assets are as follows:

<i>(Amounts in PHP)</i>	2025		2024	
	Amount	Tax Effect	Amount	Tax Effect

*\*Other comprehensive income*

The breakdown of the Company's NOLCO as at December 31, 2025, which can be claimed as deductions from future taxable income within three or five years from the year the tax loss was incurred, is presented below. Specifically, NOLCO incurred in 2021 and 2020 can be claimed as a deduction from the gross income until 2026 and 2025, respectively, in accordance with Republic Act No. 11494, *Bayaniban to Recover as One Act*. The NOLCO incurred in 2022 shall be valid for a period of three years.

<i>(Amounts in PHP)</i>				
Year	Original Amount	Expired Balance	Remaining Balance	Valid Until
2025	5,891,928	-	5,891,928	2028
2024	5,184,828	-	5,184,828	2027
2023	5,104,030	-	5,104,030	2026
2022	4,913,834	4,913,834	-	
2021	5,708,824	-	5,708,824	2026

	<b>31,762,943</b>	<b>9,873,333</b>	<b>21,889,610</b>	

In 2025, 2024 and 2023, the Company is subject to the MCIT which is computed at 2%, 2% and 1.5%, respectively, of gross income net of allowable deductions, respectively, as defined under the tax regulations, or to RCIT, whichever is higher. There was no RCIT incurred in 2025, 2024 and 2023 as the Company is in a tax loss position in those years. However, the Company incurred MCIT in 2025, 2024 and 2023 due to realized foreign currency gains.

Presented below are the details of MCIT and the year in which it can be claimed as deduction against RCIT.

<i>(Amounts in PHP)</i>					
<u>Year Incurred</u>	<u>Original Amount</u>	<u>Applied/ Expired</u>	<u>Remaining Balance</u>	<u>Expiry Year</u>	
2025	1,574	-	1,574	2028	
2024	4,347	-	4,347	2027	
2023	1,045	-	1,045	2026	
	<b>6,966</b>	<b>-</b>	<b>6,966</b>		

In 2025, 2024 and 2023, the Company opted to claim itemized deductions in computing for its income tax due.

## 16. BASIC AND DILUTED LOSS PER SHARE

Basic and diluted loss per share for the years ended December 31, 2025, 2024, and 2023 is computed as follows:

<i>(Amounts in PHP)</i>	<u>2025</u>	<u>2024</u>	<u>2023</u>
Net loss attributable to the shareholders of the Company	<b>(5,574,688)</b>	(4,487,865)	(5,583,931)
Divided by the weighted average number of outstanding shares	<b>3,159,292,441</b>	3,159,292,441	3,159,292,441
Basic and diluted loss per share	<b>(0.0018)</b>	(0.0014)	(0.0018)

The Company has no potentially dilutive common shares as of December 31, 2025 and 2024.

## 17. COMMITMENTS AND CONTINGENCIES

There are commitments and contingencies that arise in the normal course of the Company's operations which are not reflected in the financial statements. As at December 31, 2025 and 2024, management is of the opinion that losses, if any, that may arise from these commitments and contingencies will not have a material effect on the Company's financial statements.

## 18. CATEGORIES AND OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

### *18.1 Carrying Amounts and Fair Values by Category*

The Company has no financial assets at fair value whose fair value is required to be disclosed. For the Company's financial assets and financial liabilities at amortized cost as of December 31, 2025 and 2024, management considers that their carrying values approximate or equal their fair values, thus, no further comparison is presented. Fair value determination of such financial instruments is discussed in Note 19.

## ***18.2 Offsetting of Financial Assets and Financial Liabilities***

The Company has not set off financial instruments and does not have relevant offsetting arrangements. Currently, financial assets and financial liabilities are settled on a gross basis; however, each party to the financial instrument (particularly related parties) will have the option to settle all such amounts on a net basis in the event of default of the other party through approval by the respective BOD and stockholders of both parties or upon instruction by its major stockholders. There was no potential offsetting as at December 31, 2025 and 2024.

## **19. FAIR VALUE MEASUREMENT AND DISCLOSURES**

### ***19.1 Fair Value Hierarchy***

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS Accounting Standards, are categorized into three levels based on the significance of inputs used to measure the fair value.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry Company, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market of another instrument which is substantially the same after taking into account the related credit risk of counterparties or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Company uses valuation technique, it maximizes the use of observable market data where it is available and relies as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

### 19.2 *Financial Instruments Measured at Fair Value*

The Company holds financial assets at FVOCI. The fair value of investments in I-Mart and EIB has been determined based on the net asset approach. Provided with allowance, the assets are carried at nil as of December 31, 2025 and 2024.

In 2025 and 2024, the Company used the market approach – price-to-earnings as its valuation method in determining the fair value of investments in MEC. The approach is based on valuation technique where the Company measures its current share price relative to its earnings per share. The price-to-earnings ratio is also known as the price multiple or the earnings multiple.

All financial assets at FVOCI are categorized under Level 3 of the fair value hierarchy.

The Company has no financial liabilities measured at fair value as of December 31, 2025 and 2024.

### 19.3 *Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed*

Management considers that due to the short duration of financial assets and financial liabilities measured at amortized cost, as disclosed in Note 18, their carrying amounts as of December 31, 2025 and 2024 approximate their fair value. Except for cash and cash equivalents which is classified under Level 1, all other financial instruments are classified under Level 3 wherein inputs are not based on observable data.

There were neither transfers between Levels 1 and 2 nor changes in Level 3 instruments in both years.

## 20. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

Presented below is the reconciliation of the Company's liabilities arising from financing activities, which includes both cash and non-cash changes.

We have audited, in accordance with Philippine Standards on Auditing, the financial statements of Medco Holdings Inc. (the Company) for the years ended December 31, 2025 and 2024, on which we have rendered our report dated March 31, 2026. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Supplemental Schedule on Financial Soundness Indicators, including their formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Company's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS Accounting Standards) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purposes of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission (SEC), and is not a required part of the basic financial statements prepared in accordance with PFRS Accounting Standards. The components of these financial soundness indicators have been traced to the Company's financial statements as at December 31, 2025 and 2024 and for the years then ended and no material exceptions were noted.

## Materiality Process

### Explain how you applied the materiality principle (or the materiality process) in identifying your material topics.<sup>1</sup>

Medco Holdings, Inc. (MED) is a holding company whose primary investment is in Manila Exposition Complex, Inc. (MEC), the company that operates the World Trade Center Metro Manila (WTCMM). As MED's investment in MEC is only 18.18%, it is not considered a subsidiary. Thus, our report will solely focus on the operations of MED.

## Economic Performance

### Direct Economic Value Generated and Distributed

Disclosure	Amount	Units
Direct economic value generated (revenue)	1,825,796	PhP
Direct economic value distributed:		
a. Operating costs	2,035,996	PhP
b. Employee wages and benefits	3,275,887	PhP
c. Payments to suppliers, other operating costs	2,085,302	PhP
d. Dividends given to stockholders and interest payments to loan providers	0	PhP
e. Taxes given to government	584,241	PhP
f. Investments to community (e.g. donations, CSR)	0	PhP

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management Approach
MED's investment in MEC, the owner and operator of the World Trade Center Metro-Manila, normally earns dividend income which in turn enables MED to pay the salaries of its employees and provide their benefits as well as adequately covering its other operating costs and expenses, including payments to utility companies and suppliers. MED's two nominee Directors sit in MEC's Board thereby closely monitoring and directing the performance of MEC's management and being actively involved in setting that company's overall policies and strategies.	Employees Stockholders Suppliers	MED is continuously looking for investments that would increase shareholder value and enable the company to provide for its employees.
What are the Risk/s Identified?	Which stakeholders are affected?	Management Approach
Given that the company's dividend stream depends on the profit performance of MEC, an economic downturn that will negatively affect the operations of the WTCMM will inevitably diminish MEC's dividend	Employees Stockholders Suppliers	As a matter of policy, MED aims to diversify its portfolio of investments in order to mitigate the adverse impact to its revenue-generating ability of any economic downturn that may hamper

paying capacity and directly impact on MED's revenues. The recent conflict between Iran and Israel in tandem with the United States is affecting oil prices worldwide. Should this continue, a resulting rise in operating costs for MED and MEC will put pressure on both companies' bottomline.		MEC's profitability.
<b>What are the Opportunity/ies Identified?</b>	<b>Which stakeholders are affected?</b>	<b>Management Approach</b>
The Philippine's GDP grew by 4.4% in 2025, slower than the previous year's 5.7% as the corruption scandal during the second half of the year affected consumer and investor confidence while the slowdown in infrastructure projects and strong typhoons affected the economy. Nevertheless, GDP growth rate is projected to improve to 5.1% in 2026 and 5.8% in 2027 given the country's stable inflation rate, strong exports and agriculture sector and continued government spending.	Employees Stockholders Suppliers	Given the sustained growth in the local economy, MED will continue to look for new investment prospects to diversify its portfolio and thereby enable the company to weather any future economic downturn.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management Approach
<p>Employee morale is boosted and attrition is minimized when employees feel that they are being taken care of by their company. This covers all departments and employee ranks.</p> <p>Clients and suppliers are willing to deal with the company since it abides by the law and provides additional benefits to its employees.</p>	<p>The company abides by the directives of the SSS, PhilHealth and Pag-ibig with regard to monthly company contributions as well as collects and remits each employee's share. Policies on loan and other benefits are also adhered to.</p> <p>Employee leaves are also specified in the company's employee manual.</p>

<sup>4</sup> Employees are individuals who are in an employment relationship with the organization, according to national law or its application ([GRI Standards 2016 Glossary](#))

<sup>5</sup> Attrition are = (no. of new hires – no. of turnover)/(average of total no. of employees of previous year and total no. of employees of current year)

	The company has likewise established a retirement plan for its employees.
<b>What are the Risk/s Identified?</b>	<b>Management Approach</b>
The prevalence of virus borne diseases as well as lifestyle related illnesses may result in lost work days for employees should they contract them.	All employees are covered by a health insurance which they will be able to use in most hospitals should the need arise. They also undergo annual medical examinations.
<b>What are the Opportunity/ies Identified?</b>	<b>Management Approach</b>
Savings in terms of utility costs is being enjoyed by the company. Employee morale is boosted.	Management will evaluate if telecommuting will become a permanent policy.

<b>What is the impact and where does it occur? What is the organization's involvement in the impact?</b>	<b>Management Approach</b>
The provision of annual seminars for the members of management allows them to be abreast with current trends, particularly in the field of corporate governance.  The company is also able to comply with government regulations.	The company provides opportunities for employees to participate in seminars that are relevant to their work.
<b>What are the Risk/s Identified?</b>	<b>Management Approach</b>
Time allotted for attending seminars and trainings occasionally lessens productivity.	Management looks for seminars and trainings that will not take away too much time from the office but would still enhance the employee's work knowledge.
<b>What are the Opportunity/ies Identified?</b>	<b>Management Approach</b>
Allowing the employees to participate in seminars would enable them to apply what they have learned for the improvement of the organization.	Management welcomes suggestions from employees with regard to the improvement of productivity, policies and procedures.

% of employees covered with Collective Bargaining Agreements	0	%
Number of consultations conducted with employees concerning employee-related policies	3	#

<b>What is the impact and where does it occur? What is the organization's involvement in the impact?</b>	<b>Management Approach</b>
Consultations with employees with regard to employee-related policies allows the employees to air their grievances with management, if there are any. Management is likewise able to relay to the employees any new policies that need to be followed.	Management is open to hearing the grievances of employees, if there are any, and will conduct more consultations, when needed.
<b>What are the Risk/s Identified?</b>	<b>Management Approach</b>
Despite such consultations, there could still be difficulties encountered in addressing the employee's grievances.	Management constantly strives to find solutions that are fair to both the employee and the company.
<b>What are the Opportunity/ies Identified?</b>	<b>Management Approach</b>
The relationship between management and employees would be strengthened if employees feel that their superiors are listening to their concerns.	Management will always find ways for employees to be heard.

### Diversity and Equal Opportunity

## Data Security

Disclosure	Quantity	Units
No. of data breaches, including leaks, thefts and losses of data	0	#

<b>What is the impact and where does it occur? What is the organization's involvement in the impact?</b>	<b>Management Approach</b>
As MED is a listed company, any breach of its security protocols for safeguarding confidential data could subject the company to penalties imposed by the Philippine Stock Exchange and the Securities and Exchange Commission.	The company's employees manual embodies the company code of business conduct and ethics that specifies the company rules and the employees' duties and responsibilities to ensure data security as well as penalties for violations thereof. Management ensures such rules are strictly adhered to by its employees.
<b>What are the Risk/s Identified?</b>	<b>Management Approach</b>
Although the company has never experienced a data security breach, it acknowledges that the possibility of such breach exists in the form of employee theft of soft data stored in office computers or unauthorized employee reproduction of files kept in filing cabinets. Another identifiable risk is that unknown external hackers may gain illegal access to the company's data server.	Management constantly reminds all employees to strictly adhere to company rules on data security. Furthermore, MED employs the contractual services of an IT and Data Security Consultant to monitor the security of the office computer server and desktop computers and recommend the necessary security hardware and software for acquisition as well as security protocols for implementation of company management.
<b>What are the Opportunity/ies Identified?</b>	<b>Management Approach</b>
Opportunities to safeguard data security can be identified through full awareness about the availability of new hardware, software and protocols to enhance and ensure complete protection against data hackers.	Management intends to always follow the recommendations of its IT and Data Security Consultant for safeguarding the company's confidential data.
